公司简介

COMPANY PROFILE

万纳普是一家专注于高分子材料加工解决方案的国家级高新技术企业。在江苏常州和上海松江分别设有制造基地、研发中心和国际贸易营销中心。

万纳普提供功能助剂、功能母粒、功能材料，同时为客户量身定制阻燃、抗菌和全生物降解等总体解决方案。

常州制造基地拥有多条各种独特工艺的万吨级生产线。

上海营销中心一直保持与国际客户的长期合作，持续引进国际顶级功能添加剂。万纳普自主研发的功能材料远销欧美、东南亚等许多国家。

万纳普建立了“产销研用”技术服务体系，实施最严格的质量控制，确保品质优良、服务优质。万纳普拥有稳定、可靠、安全的仓储系统和物流网络。

万纳普持续关注环境和职业健康，专注于为高分子材料加工行业提供齐全的助剂包和定制化解决方案，以新材料、新技术、新工艺助力高分子新材料加工产业智能化升级，打造绿色的行业生态链。

珍惜地球
让传统的加工现场成为记忆
With cherishing of the earth
We make plastic processing greener

One-up is a national-level new high-tech enterprise engaged in the processing solutions of high polymer materials. The company has manufacturing bases, R&D centers and international trade marketing centers in Changzhou, Jiangsu Province, and Songjiang, Shanghai City.

With functional additives, functional masterbatches and functional materials, One-up provides customers with fire retardant, antimicrobial and fully biodegradable solutions as well as other customized overall solutions.

Changzhou Manufacturing Base owns multiple 10,000-ton level production lines with various unique techniques.

By keeping long-term cooperation with international customers, Shanghai Marketing Center has always introduced international top-level functional additives. The functional materials independently developed by One-up have been sold in many countries in Europe, America and Southeast Asia.

By establishing the technical service system of "Production, Marketing, Research and Application" and implementing the strictest quality control standard, One-up ensures to provide customers with high quality products and good services. One-up has the stable, reliable and safe warehousing system and logistics network.

Paying continuous attention to environment and occupational health, One-up is engaged in providing complete additive packages and customized solutions for customers of the high polymer material processing industry, to facilitate intelligentized upgrading for the high polymer material processing industry with new materials, technologies and techniques, so as to build the green industry ecological chain.

服务支持 SERVICE SUPPORT

技术支持 Technical Support

万纳普拥有一支实力雄厚的技术团队，为客户提供专业支持和技术服务。公司技术中心平台可为客户提供定制化产品及配方，同时为万纳普自有品牌产品提供技术支持。

With a strong technical team, One-Up provides customers with professional supports and technical services. With the platform of the Technical Center, the company provides customers with customized products and formulas, as well as products of One-Up brand with technical supports.

市场推广 Market Promotion

注重功能母粒应用领域的开发，如注塑、型材挤出、发泡、纺丝、吹膜、涂覆等，可提供定制化解决方案，更好地服务于市场和客户，拓宽公司产品覆盖领域。

By laying emphasis on development in fields of masterbatch application such as injection molding, profile extrusion, foaming, spinning, film blowing and coating, the company provides customers with customized solutions, to provide better services to markets and customers, so as to expand the coverage fields of the products.

安全库存 Safe Stocks

与产品供应商建立稳定的长期战略伙伴关系，拥有充足的国际货物安全库存。万纳普的充足产能，是客户稳定可靠的供货保障。

With stable long-term strategic partnership with suppliers of products, the company has sufficient safe stocks of international goods. One-Up provides customers with stable and reliable supply for goods due to the sufficient production capacity.

准时送达 Timely Delivery

与国内外一流的物流企业共建稳定、可靠、安全的仓储和物流网络，确保产品在全国范围内及时送达客户。

With stable, reliable and safe warehousing and logistics network with top logistics companies at home and abroad, the company can ensure that the products can be delivered to customers in a timely way.

珍惜地球
让传统的加工现场成为记忆
With cherishing of the earth
We make plastic processing greener

齐全助剂包 COMPLETE ADDITIVE PACKAGES

作为高性能化工助剂进口贸易商，万纳普始终致力于将全球化工细分行业顶级品牌的产品引入中国市场，以搭建客户与供应商畅通的桥梁为己任，产品广泛用于改性塑料、电线电缆料、印刷线路板、橡胶、不饱和聚酯等众多领域。

As an import merchant of high-performance chemical additives, One-Up has always been engaged in introducing top brands of the global chemical subdivided industry into Chinese markets. By taking "establishing the bridge between customers and suppliers" as the responsibility, the company has products widely applied to multiple fields such as modified plastics, wire and cable materials, printed substrates, rubbers and unsaturated polyesters.

代理产品公司 ACTING OF PRODUCTS

制造中心

MANUFACTURING CENTER

江苏万纳普新材料科技有限公司，成立于 2015 年。位于江苏省常州市美丽的长荡湖畔。我们以关注环境和职业健康为出发点，以不断满足客户日益增长的对环保、清洁化和智能化生产的需求为导向，通过自身的研发实力和行业经验，与众多顶级供应商合作，专注于各种功能母粒的研发、生产、销售和服务，可为下游客户提供量身定做的功能母粒化解决方案。

目前公司拥有多条适合不同工艺条件和各种材料特性的生产线，产能达万吨以上。除拥有自主研发品牌之外，还与多家国内外知名企业进行 ODM, OEM 合作，我们正在引领着行业向更健康、更节能、更高效、更经济的方向迈进。

万纳普公司坚持高质量发展的定位，以做中国高分子材料加工行业最优秀的解决方案提供商为目标，以营造绿色环保的生产环境为发展己任，坚守契约精神和商业道德，与上下游深度合作，实现互利共赢，为创造美好未来而携手共进。

Changzhou, Jiangsu, Jiangsu One-up New Material Technology Co., Ltd. was established beside the beautiful Changdang Lake in 2015. By taking emphasis on environment and occupational health as the starting point, we have cooperated with large numbers of top-layer suppliers to be engaged in research, development, production, sales and services of various types of functional masterbatches based on research and development strength and industry experience by taking meeting customers' increasingly grown demands on environmental protection as well as clean and intelligent production as the development orientation. In this way, the company provides downstream customers with customized solutions about functional masterbatches.

The company owns many production lines suitable for various technique conditions and material characteristics, with production capacity of more than 10, 000 tons. In addition to brands independently researched and developed the company also cooperates with many famous companies at home and abroad about ODM and OEM, to lead the industry to develop in a healthier, more energy-conserving, more efficient and more economical way.

By insisting on the positioning of high-quality development, One-Up Company aims to work as the most excellent supplier of solutions in the high polymer material processing industry in China. By building green and environmentally protective production environment as the development responsibility, the company sticks to the spirit of contract and commercial ethics, to conduct in-depth cooperation with upstream and downstream companies, so as to realize mutual benefits and win-win result, to create a beautiful future.

研发中心 R&D CENTER

珍惜地球
让传统的加工现场成为记忆
With cherishing of the earth
We make plastic processing greener

在北京、上海分别设立专业、完备的技术研发中心。

Professional and complete technical R&D centers have been established in Beijing and Shanghai.

致力于成为全球最可靠的解决方案提供商。

The company is engaged in becoming the most reliable supplier of solutions all over the whole world.

公司立足全球视野，着眼技术创新，不断扩展技术和专家资源，升级供应能力，保持公司在行业以及相关产业中的技术前沿地位。

Based on a global perspective and technical innovation, the company has always expanded resources in technologies and experts and updated supply ability, to keep the leading status in the industry and related industries.

公司提供专业解决方案，产品品类丰富，辅以高端技术，根据客户个性化需求，定制专项解决方案。

By providing professional solutions of abundant categories assisted with high-end technologies, the company provides customers with customized special solutions according to their individual demands.

塑料添加剂应用评估

Evaluation on application of plastic additives

添加剂应用评估、技术支持，弥补进口添加剂的应用支持短板；助剂制造商新产品应用开发。

The evaluation on application of additives and the technical supports can compensate for the short slab of imported additives; in addition, they can assist with the additive manufacturers in product application and development.

功能母粒设计与开发

Design and development of functional masterbatches

设计开发符合市场需求的功能母粒配方与加工技术；承担合作公司委托的功能母粒的配方和工艺技术开发。

The company designs and develops the formulas and the processing technologies of functional masterbatches in accordance with market demands; in addition, the company is in charge of developing formulas and technologies of functional masterbatches entrusted by cooperating companies.

客户委托产品设计与开发

Design and development of products entrusted by customers

结合资源优势，提供柔性、高效的客户委托产品开发服务。

In combination of resource advantages, the company can provide flexible and efficient services of developing customer-entrusted products.

科技项目合作、专利

Science and technology project cooperation and patents

与合作单位联合开发与公司产品相关的政策导向项目，如清洁生产、节能环保、资源节约。

The company cooperates with partners to develop policy-oriented projects related to products of the company such as cleaning production, energy conservation, environmental protection and resource conservation.

核心解决方案 CORE SOLUTIONS

功能母粒 FUNCTIONAL MASTERBATCH

浓度 Concentration

高浓度—用于双螺杆类可二次混合的加工工艺。

中浓度—用于单螺杆类混合较弱的挤出加工工艺，包括直接注塑。

低浓度—用于高分散要求的加工工艺，如纺丝、吹膜等。

High concentration – used for processing techniques that can be mixed for the second time such as the double screw type.

Moderate concentration – used for relatively weak extrusion processing techniques of the single screw type, including the direct injection molding.

Low concentration – used for processing techniques with high dispersion requirements, such as spinning or membrane blowing.

载体 Carriers

高温载体—PA、PBT、PC、ABS、PP 等工程塑料。

低温载体—PE、TPE、PVC 及乙烯共聚物类。

High temperature carriers – engineering plastics such as PA, PBT, PC, ABS and PP

Low temperature carriers – PE, TPE, PVC and vinyl copolymers

助剂资源协同 Coordination of additive resources

公司代理的各种国际一流品牌助剂，为功能母粒开发提供最新、最优选择。

The international top brand additives agents acted by the company are the latest and the best choices for development of functional masterbatches.

原料形态 Forms of Raw Materials

粉体 (可预先进行专业的表面处理)、胶体、片状、晶须、液体。

Powders (professional surface treatment can be conducted in advance), colloid, schistose, whisker and liquid.

专利外观 Patent Appearance

独特的片状功能母粒，使得高比重产品的沉底不再是问题，微粒 (粉) 母粒适用于 PVC。

The unique schistose functional masterbatches solve the problem of sinking to the bottom of products with high specific gravity, and the particles (powders) antimony masterbatches are applicable to PVC.

造粒 Pelletizing

模面热切 (风冷、水环、水下)、拉条 (水槽)、挤压 (无载体)

Die surface hot cutting (air patenting, water ring and underwater), bracing (water channels) and extrusion (no carrier)

复合型多功能母粒 Compound-type Multiple-functional Masterbatches

丰富的塑料改性经验，可与客户探讨、定制组合型模块化功能母粒，研发最佳性价比产品服务于下游加工应用。

With abundant experience in plastic modification, the company can discuss with customers to customize combined modularized functional masterbatches, to research and develop products with the best cost performance, serving for downstream processing and application.

齐全 Complete Products

阻燃、增强、填充、增韧、成核、扩链、润滑、抗静电、防老化、导电、导热、镭雕、硅酮、抗菌、防污、防虫、发泡、开口爽滑, PIM.....

Products of fire retarding, strengthening, filling, toughening, nucleating, chain extension, lubricating, anti-static electricity, anti-aging, electric conduction, heat conduction, radium engraving, silicone, antibiosis, antifouling, insect prevention, foaming, smooth opening, PIM.....

批量秤革新工艺 Reformed Techniques for Mass Balances

精确 6 斗增重秤，满足多种树脂 + 功能母粒代替高混机和 / 或多台计量秤的传统生产工艺。

The accurate weight balance of 6 hoppers can mix the demand of multiple resin + functional masterbatches, replacing the traditional production techniques of high mixing machine and/or multiple weighing scales.

北化专业教授螺杆设计，直接注塑成型解决方案，同系列多规格 (不同厚度、尺寸、颜色) 制品的最佳选择。

The screw is designed by a professor of Beijing University of Chemical Technology, with the direct injection molding solution, the best choices for products of multiple specifications (different thickness, sizes and colors) of the same series.

专业订制解决方案 SPECIALIZED CUSTOMIZATION OF SOLUTIONS

3L+φ40 单螺杆
3L+φ40 single screw

φ35 平行双螺杆
φ35 parallel double screw

φ45 锥形双螺杆
φ45 taper double screw

35L+φ52 平行双螺杆
35L+ moderate 52 parallel double screw

Air-cooled cutting

水环切粒
Water-ring cutting

水下切粒
Underwater cutting

清洁化 多种选择 解决方案

CLEAN AND MULTI-CHOICE SOLUTIONS

高浓度单品母粒 High-concentration single-product masterbatches

清洁化生产变得轻而易举 It makes clean production so easy

- 让投料、混料工段的传统现场只留在回忆中
Make traditional workmanship such as batch charging and mixing memories only
- 90% 或以上的浓度
Concentration of 90% or above
- 1:1 替代使用成为可能
Make the substitution of 1:1 as possible
- 不改变配方使用习惯
Don't change the using habit of formulas

模块化复合母粒 Modularized compound masterbatches

智能化制造必不可少的前序 Necessary preorder for intelligentized manufacturing

- 功能式、模块化配方组合
Functional and modularized formula combination
- 设备投资、维护成本大幅减少
Greatly reduced equipment investment and maintenance cost
- 减少人工成本符合未来趋势
Reduce the labor cost, in accordance with future trend
- 支持国产设备
Support for domestic equipment

全配方复合母粒 Full-formula compound masterbatches

您的工厂，有被气味困扰的问题吗？ Are you troubled by odors in your plant?

- 某些敏感组份（阻燃、异味），无需过机，从此工厂生产不再被投诉
Some sensitive components (fire retardants and odors) will not be processed in machines, and the plant will not be complained for related reasons any further
- 您需要添加液态、胶态、低熔点、易分解、易挥发、低含量组份吗？低温密炼工艺为您提供想象空间
Do you need to add liquid, colloid, low melting point, easy to decompose, volatile and low content components? The low-temperature process provides you with imagination space
- 在一台双螺杆上实现所有性能，不再是唯一的选择
Realize all the performances on a double-screw, and it is not the only choice
- 满足客户要求，您有高效的新选择
To meet customers' requirements, you have an efficient and new choice

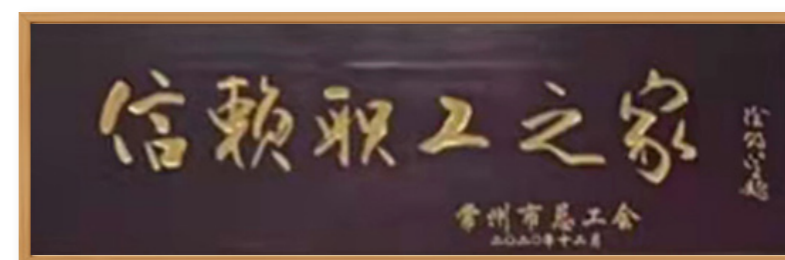

多母粒解决方案 Multi masterbatch solution

您的成品，有粉末原因被客户投诉吗？ Is your product complaint by customer cause of powder problem?

- 双母粒设计，您的产品，无粉末将是卖点，拒绝烧焦
Double masterbatch, non-powder of your product will become the selling point. No scorching
- 集中配料输送系统的福音
Good news to centralized ingredient delivery system
- 性能的大幅提升，带来成本可节约的意外收获（配方优化或结构重设）
Performance is greatly improved, resulting in unexpected cost savings. (Formulation optimization)
- 增强、遮光、导热品种，钛白粉配色不再是难题
Strengthening, shading, heat conduction grade. The color matching of titanium pigment is no longer a problem
- 为配方设计提供新思路
Provide new ideas for formula design

荣誉与资质

HONORS AND QUALIFICATIONS

- 中国十佳塑料助剂供应商
One of Top Ten Suppliers of Plastic Additives
- 安全生产标准化三级企业
One of Level Three Companies of Work Safety Standardization
- 入选为常州市金坛区第一批科技计划项目企业
Selected as one of the first batch of Science and Technology Planning Project Enterprises of Jintan District, Changzhou
- 纳税贡献二等奖
The Second Prize for Tax Contribution
- 销售贡献奖
Sales Contributions Award
- 清洁环保企业
One of Clean and Environmental Protection Enterprises

- 跻身中国塑料加工工业协会第一届理事成员
Selected as one of the first Session of members of China Plastics Processing Industry Association
- 成为日本抗菌制品技术协会会员
A member of Japan Antibacterial Products Technical Association
- 加入全国卫生产业企业管理协会抗菌产业分会
Selected as a member of Antibacterial Industry Branch of National Health Industry Enterprise Management Association
- 团体标准起草单位
A drafting unit of Group Standards
- 中塑协阻燃材料及应用专委会理事单位
A council member of Flameresistant Material and Application Special Committee of China Plastics Processing Industry Association
- 江苏省新材料产业协会常务理事单位
An executive member of Jiangsu Advanced Materials Industry Association
